

These policies are intended to guide PYV Council, staff and convenors regarding expenses incurred from campsite damage

General policy

PYV understands that damage to campsite property can happen accidentally during activities and free time on camp and will cover the costs associated.

However cost associated with the replacement or repairing of campsite property damage caused by a camper on purpose or outside of activity time will be invoiced to the parents of the child responsible.

It is up to the discretion of the camp convenor and PYV Council to decide otherwise when the situation arises.
